

# Jennifer Feng

jennjxf@gmail.com | Seattle, WA

## Summary

Data-driven problem solver with software engineering and accounting background. I bring a user-centric approach to understanding product and service needs, and a passion for improving user interaction and experience.

## Toolkit

**Web Development:** HTML, CSS, JavaScript, C#

**Libraries/Frameworks:** ASP.NET MVC

**Other:** Azure DevOps, Microsoft Azure, Visual Studio, Visual Studio Code, Figma

## Experience

- |                     |   |
|---------------------|---|
| Feb 2019 - Present  | <p><b>Microsoft, Software Engineer</b></p> <ul style="list-style-type: none"><li>• Develop features and maintain web applications for Azure Watson and Client Watson (services that provide crash event information and secure and compliant debugging access).</li><li>• Work closely with internal service teams (Azure Graph, Lockbox, JIT, dSTS) to incorporate features and improvements for user authentication and access.</li><li>• Expanded Azure Watson access models for internal users and customer support engineers, including extending remote debugging access into sovereign clouds.</li><li>• Improve legacy code by converting to reusable components and incorporating accessibility.</li><li>• Cross collaboration across Performance &amp; Productivity Platforms to light up and deploy Azure Watson in air-gapped clouds, and documented process for future clouds.</li></ul> |
| Jan 2018 - Jan 2019 | <p><b>Microsoft, Software Developer Apprentice</b></p> <ul style="list-style-type: none"><li>• Implemented feature by auto-processing ~200+ GiB of daily data, creating OData API endpoints to query for specific data, and visualizing the data in our web application for internal users to view when user mode crash events first occurred.</li><li>• Streamlined the data request process and reduced interaction friction for users by collaborating with a data collection team to integrate their data request form (GMD) into our web application.</li><li>• 1 of 20 apprentices accepted into Washington Technology Industry Association's Apprenti program out of 1,000+ applicants.</li></ul>  |
| May 2016 - Aug 2017 | <p><b>International Community Health Service, Accountant III</b></p> <ul style="list-style-type: none"><li>• Prepared journal entries and reconciliations of bank accounts for 5 ICHS locations, assisted accounts receivable and accounts payable, and performed cost and revenue projections.</li></ul>   |
| Aug 2013 - Dec 2015 | <p><b>Bader Martin, P.S., Tax Associate</b></p> <ul style="list-style-type: none"><li>• Tax preparation for individuals, not-for-profits, partnerships, and s corporations.</li></ul>   |

## Education

- |               |   |
|---------------|---|
| December 2017 | <b>Coding Dojo</b> , 5-month full-stack development                     |
| June 2013     | <b>University of Washington</b> , Master's in Taxation                  |
| June 2012     | <b>University of Washington</b> , Bachelor's in Business Administration |
